

'WE NEED HOMES!'

These are just a few of our Dobermanns needing loving homes. If you can offer a home or help by way of a donation please contact Chris Omar or visit our website for more information.

SPIRAL

Spiral is a stray that we took in from the Dog Warden. She is 4 years old, unspeyed and has been heavily bred. We think she has come from a Gypsy camp as she looks like she has been tethered by one of her front legs. She is in poor condition with various scars....a real rescue case. She is nervous of men and wary of strangers.

Can you offer her a decent life? She just needs somewhere to call home, someone to love her and look after her. Are you that person?

KIPPER

Kipper is a 5 year old, castrated brown and tan Dobermann He is a large, strong boy who needs kind, but firm handling. He is not used to cats and would be best suited to a home without young children.

Kipper has been rehomed by the DRA before, when he was a year old, but has been returned due to his owners ill health

BARON

Baron is a 3 to 4 year old entire male. He came to us via the Dog Warden so we don't have a lot of history about him.

He has obviously been beaten in his previous home as he runs away when any object is lifted near him. He is wary of strangers, but once he gets to know you he is a very sweet, loving boy.

He is fine with bitches, but not with other dogs and he has had some training in the past.

Baron just needs someone to love him and give him the caring, stable home that he so deserves.
